 Re: Summary of LDAC Meeting, Thursday, March 1, 2018
 Location: North Shore Public Library

Summary:

MPL Resource Library Report: LDAC received copies of this report after the MCFLS Board suggested distributing it to the LDAC. Steve will provide an electronic version so that libraries can share with their Boards.

MPL/SOIS Fines Study: Rachel Arndt, General Reference and Customer Service Coordinator from Milwaukee Public Library, reported on the fines study that is being done in partnership with the UW-Milwaukee School of Information Studies. The fines study started in 2016 when MPL conducted a fine forgiveness program. The study is tracking what happened after the fines were forgiven. MPL, MCFLS and SOIS will present information at library conferences and are working on a template that can be used by other libraries interested in conducting a fine forgiveness program.

2017 Public Library Annual Report: The reports are due today. There was discussion to clarify the use of databases and the use of wireless service.

Titles added 2017: Steve clarified that titles that were cataloged in 2017 may be titles that were added in 2016.

Hoopla statistics and expenditures through January 31, 2018: Steve distributed promotional material. Discussion on marketing strategies, with the suggestion of marketing all e-format material (Overdrive, RB digital magazines, as well as Hoopla).

Sierra and Database server issues. OS upgrade: Steve reviewed the server issues. The OS upgrade didn't happen and will be rescheduled soon.

WPLC Steering Committee Report: Judy Pinger, who is one of the MCFLS representatives on the WPLC Steering committee, reviewed the OverDrive "Get a Library Card Feature." Discussion focused on questions and issues of providing a digital card, with a fee charged back to the patron's residence library. In addition, Judy reviewed the BiblioLabs proposed partnership with the Wisconsin Public Library Consortium to launch and support: 1) a statewide indie book and self-publishing program and 2) the introduction of a statewide DRM free, geolocated community reading platform.

CollectionHQ update and implementation information: Steve reviewed the implementation process for getting member libraries going with CollectionHQ.

Non-Binary designation in the GENDER field: Continued discussion on the use of / need for the gender field in the patron database. Steve suggested that by eliminating the gender designation and clearing that information, the field could be repurposed. One possibility would be to use this field as the new residence field and repurpose the current residence field as a hold pickup location field. This may allow patrons to select a pickup location as a default. There was a motion and a second to eliminate the collection of gender information and to repurpose that fixed field; motion passed with 1 abstain and 1 no.

Additional business:

- TBS demo: Steve reported there will be a TBS (software) demo at Franklin Library (3/8/18).
- PressReader: Steve reported member libraries will have the opportunity to try out this digital database for newspapers.
- Searchable pdfs: Steve has implemented searchable pdfs for all MCFLS Board, LDAC and committee meeting material using a free software.
- Boopsie: Steve is considering replacing Boopsie with Discover Mobile. The contract for Boopsie ends in October 2018.
- Periodical subcommittee: The periodicals subcommittee has a meeting set for March 20 and will continue to work on procedures that can be used System wide.
- "Claims returned" function: Oak Creek director asked who uses the "claims returned" function.
- "Open Holds Shelf": North Shore director asked for feedback on the use of "Open Holds Shelf"; does it save staff time, does it work with self-checkout systems.
- Friends organizations: Shorewood director asked how other libraries work with their Friends organizations regarding funding and support.
